The best university preparation for you

Founded in 1959, Bellerbys College provides a high-quality British education that's tailor-made for you and trusted by universities.

Welcome to Bellerbys

Bellerbys is one of the most well-known and well-respected international colleges in England, offering you a route to university in the UK. We give international students like you the opportunity to study at a leading UK university, offering a range of programmes to help you get there including:

GCSEs, A Level, International Foundation, Undergraduate Year 1 as well as English language support.

Each of our campuses has its own unique facilities and resources to provide a friendly and supportive learning environment. Over the years, we've helped our students achieve excellent exam results and successfully progress to elite universities.

The top 30 UK universities accept our students

We'll help you make the best university choice for you. With A Levels, you can apply to any university in the UK. We offer specialist preparation to those of you wishing to study medicine or apply to Oxford or Cambridge. Our Foundation programme offers progression to 100 universities (including many in the top 30*) and 6,000 degree programmes.

No matter which programme you choose, we are committed to providing you with a traditional education, complemented by the 21st century skills everyone needs and the university connections to succeed both now and in the future.

Study a tailor-made education

Our high-quality British education is designed specifically for international students and trusted by universities. Our team of expert staff help to create an environment of specialist academic programmes and support, working with you to ensure your programme is meeting your needs.

All our staff are specialists in teaching international students. Classes are small, ensuring you get the individual attention you need to achieve your academic potential. We also help you to continue developing outside of the classroom, offering a range of enrichment activities designed to broaden your interests and enhance your university application.

No matter which programme you choose, we are committed to providing you with a traditional education complemented by the 21st century skills

Grow in confidence ready for university

Ambitious students will thrive under our combination of dynamic teaching, enrichment programmes and links with leading universities. We have more than 60 years' experience helping students like you develop the skills and confidence to succeed in a UK university environment.

There is a wide variety of support roles in each campus, ranging from accommodation and welfare officers to language advisors, personal tutors and security. At Bellerbys, you'll be part of a welcoming and supportive international community from your first day. We're here to help, so that you can focus on your studies and achieve your full potential.

Progress to a top university

We work with 100 universities, connecting you to the right university for you. Our regular events and expert knowledge offer you direct access to our university partners and help choosing which university to go to.

Wide choice of universities

At Bellerbys, we connect you to the right university for you. Offering the widest choice of university pathways, you can apply to any university in the UK depending on your programme choice. Our A Level programme gives you unrivalled access to all of the UK's elite universities and degree options. Our A Level students have gone on to study at more than 100 different universities – including Oxford, Cambridge, Imperial College London, London School of Economics and University College London.

Academic English Skills

Our Foundation and Undergraduate Year One programmes both offer thorough English language training, along with related academic skills, which will prepare you to progress to a number of universities without having to take an additional IELTS test. Your weekly timetable will include dedicated time to focus on developing the English language entrance requirements of many UK universities.

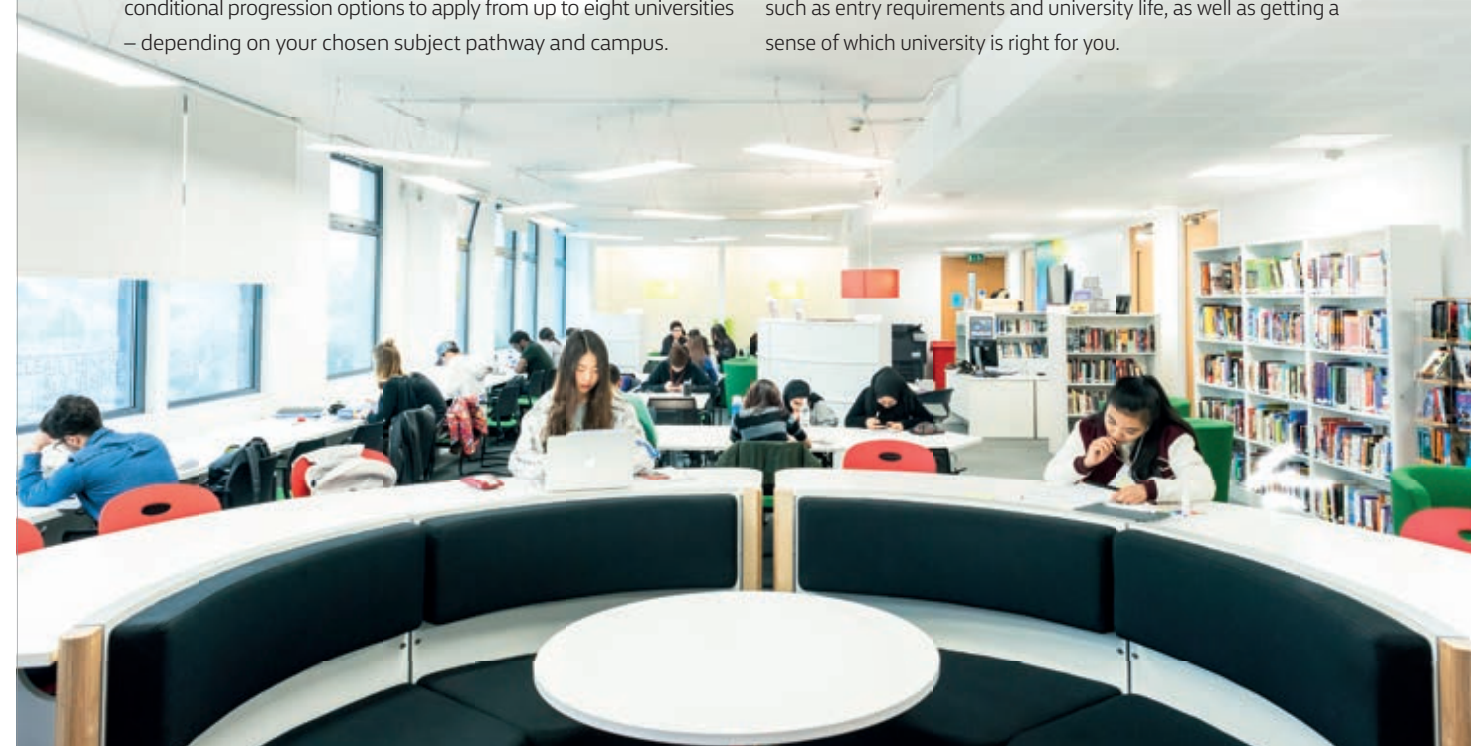

Our A Level programme gives you unrivalled access to all of the UK's elite universities

Decide on a university whilst in the UK

Choosing your university and degree is an important decision, and one that should be made when you are already in the UK. There is a lot of research that goes in to your university application – from course content to campus life. To help you make this decision, we hold one of the largest private university fairs in the UK, twice a year. Attended by more than 70 universities, you'll have the opportunity to meet university representatives in person and discuss factors such as entry requirements and university life, as well as getting a sense of which university is right for you.

Guaranteed conditional offers

Our one-year, international Foundation is recognised by 100 universities and offers progression to 6,000 degree programmes. You'll benefit from our partnership with a number of top UK universities, with guaranteed conditional offers and letters of conditional progression options to apply from up to eight universities – depending on your chosen subject pathway and campus.

University connections

We offer the widest choice of university pathways, with our Foundation programme recognised by more than 100 universities, including over 40 of the top 50 UK universities. Our Bellerbys A Level students can apply to any university in the UK.

GUARANTEED CONDITIONAL OFFERS

The Bellerbys Foundation programme is trusted by universities, and offers a guarantee of a conditional offer* from a number of respected universities, including the University of Bristol and Leeds Arts University.

For students on our Undergraduate Year One programme, you'll benefit from a guarantee of a conditional offer from Aston University.**

*Offer of guaranteed progression subject to: submission of completed UCAS application, academic reference and personal statement, meeting required standard, passing A Level/Foundation programme with the required grades and English language level. Only for degree programmes listed and conditions stated on conditional progression letters.

** You have the opportunity to progress to the second year of a degree at Aston University, subject to achieving the grade and IELTS/Academic English Studies required. For degree details see bellerbys.com/find-your-course/undergraduate-year-1.

LETTER OF CONDITIONAL PROGRESSION

In addition to our Guaranteed Progression partners, we also work with a further eight UK universities which offer a commitment of conditional progression to our Foundation students.

Conditional Progression partners will provide you with a letter highlighting the degree programmes to which you can progress and the entry requirements you will need to achieve.

You can receive offers of conditional progression* from a number of prestigious UK universities with our Foundation programme. Depending on the Foundation subject pathway you choose and location you study it in, you could receive offers of conditional progression from the above universities and degree courses. Please note that the letter in itself is not a Conditional Offer from the university. You can receive a conditional offer if you meet all the requirements through your submission of a correctly completed UCAS application.

GUARANTEED INTERVIEWS FOR A LEVEL STUDENTS

We work closely with our university connections to support students aspiring to progress to specialist subject areas. As such, some of our university partners offer guaranteed interviews to certain degrees for our A Level students, including:

- The University of Buckingham^ – guaranteed interview for A Level students for the MB ChB Medical degree
- Royal College of Surgeons Ireland^ – guaranteed interview for A Level students for the MB, BCh Medical degree
- Keele University** – guaranteed interview for Physiotherapy, Pharmacy or Radiography programmes.

- Brighton and Sussex Medical School* – guaranteed interview for Elite Medics A Level students for the BM BS Medical degree
- Brunel University London^ – guaranteed interview for A Level students for the MBBS Medicine degree

*BSMS applicants will need to meet predicted grades AAA at A Level and be studying biology and chemistry.

^Brunel University London, University of Buckingham Medical School and RCSI applicants will need to meet the required predicted grades AAB at A Level and be studying biology and chemistry.

**Keele University - available for A Level and Foundation students.

Find the best programme for you

Our variety of programmes and subject choices provide you with the opportunity to join us no matter where you are in your academic journey.

With our wide range of programmes, you'll benefit from the academic knowledge and personal support needed to achieve excellent exam results and progress to your chosen university.

A Level

A Levels are recognised and accepted by universities all over the world, and are the required programme if you are looking to study a highly competitive degree such as Medicine or Dentistry, or progress to top-ranking universities such as **Oxford, Cambridge or Imperial College London**. Traditionally studied over two years, with examinations at the end, A Levels require an ongoing commitment to your studies and a strong academic record. [More on page 8.](#)

International A Level

Aimed at international students like you, you'll have exams at the end of your first year (AS Level) and again at the end of year two.

International Foundation

Our Foundation programme has been developed for international students and is accredited by **Lancaster University** – a top 10 university.* Modular in structure, this intensive, three-term programme is accepted by 100 UK universities, including those in the prestigious Russell Group. You'll develop your English language and academic skills, with assessments at the end of each module. [More on page 18.](#)

Undergraduate Year One

An international year one programme developed in close partnership with **Aston University**, this three-term programme in Business and Management is equivalent to the first year of your chosen undergraduate degree, preparing you for direct entry to the second year at one of 27 universities. You'll gain the skills to progress to highly ranking universities such as the **University of Exeter, University of Leeds and Cardiff University**. [More on page 28.](#)

GCSE

General Certificates of Secondary Education are the main secondary education qualifications in the UK. With a choice of study options, you'll build the base of knowledge necessary for further study, such as A Level or Foundation. Students aged 15.5+ can join our intensive three or four-term programmes, studying up to six subjects, including English and Mathematics, with exams at the end. Our 2-year pathway is ideal for students between the ages of 14 and 16 studying up to seven subjects, with exams at the end of your second year. [More on page 24.](#)

Pre-Foundation

This three-term programme has been developed for international students who have completed at least nine years of schooling, but require additional English language and academic skills in order to meet the entry requirements of our Foundation programme. We also offer a **two-term programme** for students over the age of 18 looking to study Business or Marketing at university. [More on page 27.](#)

English Language Preparation

If you don't quite meet the English language requirements for your chosen Bellerbys programme, you have the option to join our English Language Preparation for one, two or three terms. You'll develop your language, communication, critical thinking and study skills. [More on page 31.](#)

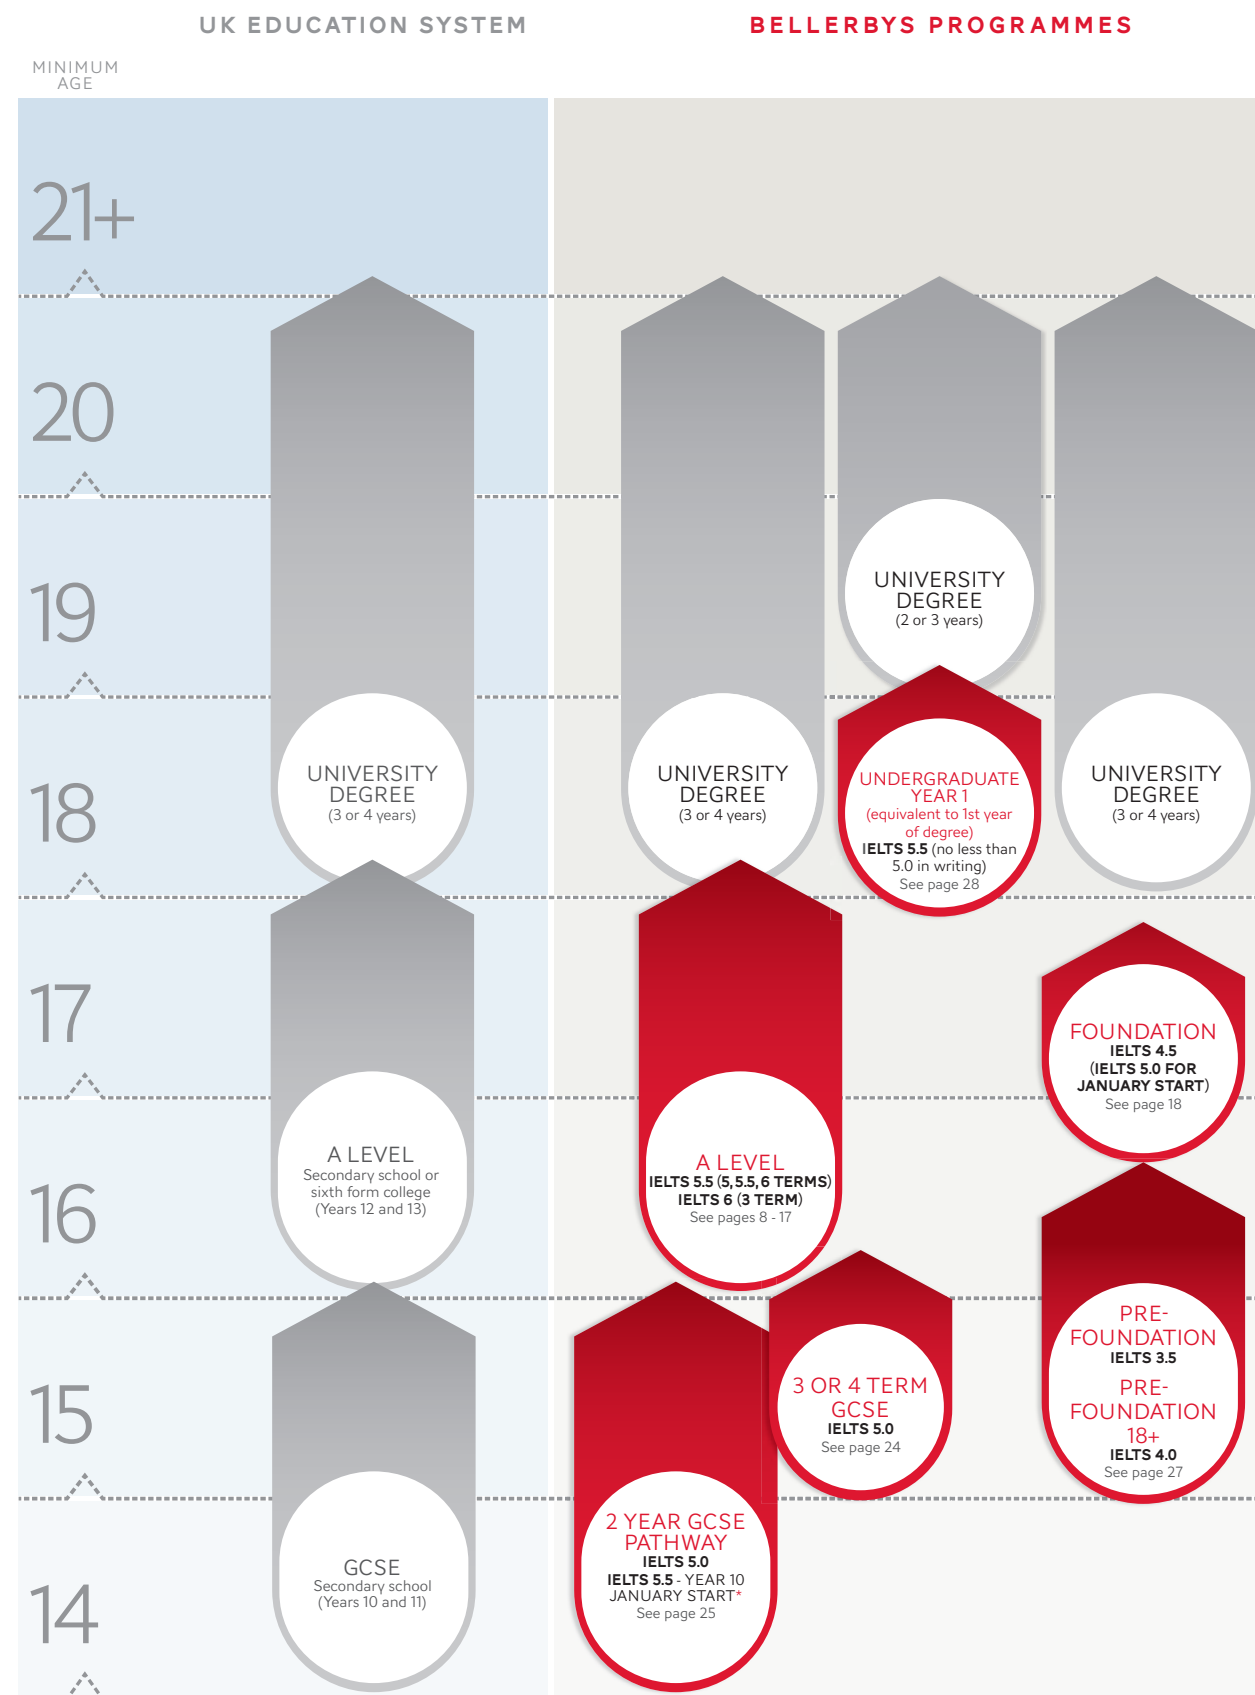

Bellerbys offers a range of short courses to help you develop your knowledge and English language skills:

- Bellerbys Summer
- IELTS Express

For more information about these programmes visit bellerbys.com

*The Times and The Sunday Times Good University Guide 2020

Bellerbys College offers you a range of learning plans depending on your age, academic and English language level. Below you can see how you can be ready for university at the same time as domestic students.

*JANUARY START ON A CASE BY CASE BASIS

Why choose Bellerbys A Level programme?

We offer an extensive range of subjects taught over 1 or 2 years. Studying A Levels gives you the widest choice of universities in the UK – including Oxford, Cambridge, Imperial, London School of Economics and University College London – as well as access to top medical schools.

Specialist teaching for international students

A Levels are challenging and require lots of dedication and motivation to do well. At Bellerbys, our teaching is adapted for international students like you, with extra focus put on developing your English language skills and independent thought. You'll study in small classes, with an average of eight students, guaranteeing you receive the necessary support and guidance. Our specialist teachers provide the right balance between practical and supervised lessons with independent projects.

Selecting your subjects

If you know what degree you want to study at university, we're here to help you choose the best subject combinations to suit your university choices. If you're unsure of your degree choice, we'll provide advice on subject combinations that interest you and allow the most flexibility for your degree choice. Your personal tutor will meet with you when you arrive at Bellerbys to help you finalise your subject choices.

In-depth university preparation

At Bellerbys, you'll receive the education and support you need to access competitive degrees such as medicine, mathematics, economics, law and architecture. Your personal tutor will support you through the university application process, overseeing your application and offering advice and guidance at every stage. They'll also help you to choose the perfect university degree for you, based on your expected grades and career ambitions.

You'll have two dedicated hours each week to help with your university application, including interview practice and personal statement writing. Preparing for university doesn't just happen inside the classroom – at Bellerbys we'll support you every step of the way.

Specialist preparation for Oxbridge and medicine

Places at medical schools and at the University of Oxford and the University of Cambridge are highly competitive, requiring more than just good grades to be offered a place. We offer extra, dedicated support to help our exceptional students submit the standard of application expected by these institutions.

Extra language support

If you need to improve your English language skills before starting your A Levels, our English Language Preparation programme is a tailored course focused on developing your language skills.

BELLERBYS A LEVEL STUDENTS HAVE PROGRESSSED TO A TOP 20 UK UNIVERSITY SINCE 2015

69%

OF OUR 2019 A LEVEL GRADES WERE A*-B COMPARED TO THE NATIONAL AVERAGE OF 51.6%

Bellerbys A Level

All of the UK's elite universities warmly welcome applications from Bellerbys A Level students.

Choosing to study A Levels requires an ongoing commitment to your studies and a high level of English language. At Bellerbys, we're here to support you throughout your studies, from choosing the right programme length and start date to additional language classes and in-class teacher support.

2-year A Level (6 terms Brighton and London)

Start in September and choose three or four subjects based on your interests and the degree you wish to study, as well as IELTS English if you require it. You'll take an internal assessment at the end of your first year to ensure you are on track. After this, you'll continue with your chosen subjects into your second year and complete your final exams at the end of your programme.

2-year international A Level (6 terms Cambridge)

A great choice for science students wishing to take their AS exams, which account for 50% of the A Level, midway through their course. This option is governed by Cambridge Assessment International Education, which is part of the University of Cambridge. You'll start your studies in September and sit AS exams in June or November at the end of your first year with final exams at the end of year two.

18-month A Level (5 terms)

Start in either January or April – making this a good option for those unable to start their A Level programme in September. You'll study three subjects, as well as English language if required, over the five terms of study. The first two terms of this programme are an intensive course of study. You'll benefit from an internal assessment (AS exam for international A Levels) at the end of your first year, before sitting your official exams at the end of year two.

1-year A Level (3 terms)

Our most intensive A Level programme, this is the typical full A Level programme studied in just one year. It's a good option if you have studied A Level before and are looking to improve your grades. The 1-year A Level is only available at Bellerbys Brighton.

A2 A Level entry (3 terms)

Only available at Bellerbys Cambridge, this is a good option of study for those who have already studied AS Level CIE (Cambridge International A Level) and achieved a minimum of three B grades or above, as well as an IELTS of at least 6.0 (or equivalent). Prospective students will have an interview with the Principal of Bellerbys Cambridge to see if you have the right educational background to complete the programme over three terms. This programme is governed by the Cambridge Assessment International Education, part of the University of Cambridge.

KEY FACTS	
AGE	15.5* (16+ for 3 term programme)
COURSE LENGTH	3, 5 and 6 terms (3 term is available in Brighton only)**
START DATES	September - all centres January - Brighton and Cambridge April - Brighton only
AVERAGE CLASS SIZE	8 students
CENTRES	Brighton, Cambridge, London (Subjects vary by location and not all A Level subject combinations are available for the 3 term or April start)
ENGLISH LANGUAGE ENTRY REQUIREMENTS	IELTS 5.5 or equivalent IELTS 6.0 or equivalent for 3 term A Level, April start and A2 Level
ACADEMIC ENTRY REQUIREMENTS	4 GCSE passes at grade C or above in relevant subjects, or equivalent evidence of a good secondary or high school education

*Brighton – students joining the 5 or 6 term A Level programme must be under 18 years of age. Students joining the 3 term A Level programme must be under 19 years of age

**Most students choose to study the 6 term programme. Students enrolled on the 3 term (one year) A Level programme are accepted on the strict understanding that progress will be reviewed at key stages including the end of the first term. We reserve the right to change students to a longer programme in light of that review. This programme is suitable for students who either have excellent high school graduation grades, are repeating an A Level course, or have studied at degree level.

A typical week for an A Level student

Below is an example of a typical A Level timetable for students starting in September (this will vary depending on location and your subject choices).

What can you study?

However long you study with us, we'll help you make the best subject choice for your university ambitions. Find out about each A Level subject, where you can study it and how it links to university degrees.

ACCOUNTING

Accounting is a good choice for a diverse range of degrees including accounting and finance, computer science, economics and other business-related degrees.

Enrichment includes: BASE - the national business and accounting competition, Young Enterprise, Maths Clinic, visits to multinational banks and lectures.

Where can you study it? Brighton, London

ART AND DESIGN

This subject prepares you for further study in all disciplines of art and design, including architecture and fashion. You'll develop practical skills as well as theoretical knowledge of art.

Enrichment includes: ARTiculation, Art and Design Club, Digital Drawing, Design and Branding.

Where can you study it? Brighton, London

+ BIOLOGY

Biology A Level prepares you to study a number of science subjects such as medicine, environmental science, geology or psychology at degree level.

Enrichment includes: Senior Biology, Senior Chemistry, Medics Club, visits to the Science Museum, field trips and lectures.

Where can you study it? Brighton, Cambridge

BUSINESS STUDIES

This varied course covers business structures, ethics, economy, law, government and the environment and can lead to a number of business-related degrees.

Enrichment includes: Business Elite, Young Enterprise, Dragons Den, CISI Finance Course and visits to the Bank of England.

Where can you study it? Brighton, London

+ CHEMISTRY

Chemistry A Level studies the material world and covers a wide variety of basic concepts such as the structure of the atom; the interaction of matter and energy; how to control reactions; patterns in the Periodic Table; understanding carbon-based molecules. It is a good choice if you plan to study medicine, dentistry, biochemistry, natural sciences or chemical engineering at university.

Enrichment includes: Senior Chemistry Challenge, Medics Club, lectures and national competitions.

Where can you study it? Brighton, Cambridge

COMPUTER SCIENCE

Computer Science allows you to study topics including information representation, communication and Internet technologies, hardware, software development, and relational database modelling. You'll also be able to appreciate the ethical issues that arise with current and emerging computing technologies.

Enrichment includes: Roving Robots, Chess Club, visits to the Computer History Museum and experiencing the Oculus Rift.

Where can you study it? Brighton, Cambridge

ECONOMICS

Economics will give you a solid grounding for the study of business, management, finance, mathematics, psychology and law degrees.

Enrichment includes: The Great Economists, Sustainable Business Club, Current Affairs.

Where can you study it? Brighton, Cambridge, London

+ ENGLISH LITERATURE

You'll study a range of texts, looking at novels and poetry and understanding them within a wider historical and cultural context. This is a good subject for those interested in a wide range of degrees, particularly law, history and politics.

Enrichment includes: Shakespeare and the English Renaissance, Model United Nations, Law Society.

Where can you study it? Brighton

+ GEOGRAPHY

This subject will provide you with the knowledge and understanding of the ways in which people interact with their environment, and the opportunities and challenges an environment can present.

Enrichment includes: guest lectures including Metallurgy and Materials, and visits.

Where can you study it? Brighton

+ FURTHER MATHEMATICS

This A Level is designed to deepen your mathematical knowledge and skills. This is good preparation for a maths-based degree, such as computer science, psychology, statistics and actuarial science.

Enrichment includes: Maths Olympiad and Chess Club.

Where can you study it? Brighton, Cambridge, London

GOVERNMENT AND POLITICS

Studying this subject provides you with a critical awareness of the nature of politics and the relationship between political ideas, institutions and processes. It is useful for further study in economics, history, law, politics and philosophy.

Enrichment includes: Model United Nations, Current Affairs.

Where can you study it? Brighton, London

+ HISTORY

You'll learn about the history of different countries and study events that have changed their culture, religion and politics. An important subject if you're considering studying law, politics, or classics at university.

Enrichment includes: Trip to Amberley Museum, Current Affairs and guest lectures.

Where can you study it? Brighton

+ MATHEMATICS

This A Level will encourage you to develop an understanding of mathematics and mathematical processes. It is a good choice for degree-level study in science, medicine, computing, economics or engineering.

Enrichment includes: Maths Challenge, Maths Problem Solving, Maths Clinic.

Where can you study it? Brighton, Cambridge, London

+ MODERN FOREIGN LANGUAGES

If you study a Modern Language at Bellerbys you'll study French or Spanish as an alternative language to your mother tongue.

Enrichment includes: Spanish Club.

Where can you study it? Brighton

PHOTOGRAPHY

Photography A Level explores a range of photographic media, techniques and processes. It is useful for a future design degree at university.

Enrichment includes: ARTiculation, Heroes and Icons, Lectures and trips.

Where can you study it? Brighton

+ PHYSICS

You'll develop an understanding of the link between theory and experiment, and will appreciate how physics is used in present day society. It is an ideal choice if you want to study engineering or medicine at university.

Enrichment includes: Senior Physics, Physics Olympiad, Quantum Physics and Quantum Technology and Robotics.

Where can you study it? Brighton, Cambridge, London

PSYCHOLOGY

Psychology A Level students will study cognitive, social, physiological and development psychology as well as key research studies. This A Level is a good choice for further study in psychology, behavioural science or a social science at university.

Enrichment includes: Cognitive Psychology lecture and visits.

Where can you study it? Brighton, Cambridge, London

SOCIOLOGY

Sociology is the study of human societies. You'll study socialisation, culture and identity, and topics such as current affairs and social differentiation.

This A Level will prepare you for a degree in sociology or related subjects.

Enrichment includes: guest lectures and university visits.

Where can you study it? Brighton

+ These are facilitating subjects and preferred by the UK's top universities. They help you keep your options open when choosing a degree.

Enrichment activities vary by location

Some A Level subject combinations may not be possible and will vary by location

Specialist preparation for Engineering

Developed in collaboration with the University of Southampton, our specialist engineering preparation gives our A Level students a competitive advantage when applying to leading universities.

As part of your A Level programme, you'll work on exciting projects that turn theory into practice, whilst expanding your understanding of the engineering industry beyond the A Level syllabus and enhancing your personal statement.

You will benefit from guest lectures, trips to the University of Southampton and project work, which includes:

- Using Arduino for building electronics projects, ranging from small weather display systems, to fingerprint scanners, to robots.
- CAD drawing software, Solidworks, used by engineers.

Specialist preparation for Oxbridge

Our specialist Oxbridge programme offers academic support and enrichment opportunities for students aiming to progress to high ranking Cambridge and Oxford universities.

Gaining a place at Oxford or Cambridge is not only about achieving high grades, your whole school experience counts. We offer a range of support inside and outside the classroom for students looking to gain a place at these prestigious universities.

Our specialist preparation includes:

- A **dedicated tutor group** with a subject specialist
- One-to-one **UCAS support**
- **Preparation** for aptitude tests
- Tailored enrichment activities such as **Young Scientist, public speaking, critical thinking and current affairs***
- **Regular assessment** to keep you on track to achieve the grades you need
- Mock **face-to-face interviews** and structured feedback from senior college staff members and business professionals
- Opportunity to take part in **local and national competitions**, including those connected to the universities of Cambridge and Oxford in order to strengthen your application
- **Advice on further reading opportunities and online courses** to develop your subject knowledge and prepare for your interviews.

Entrance exam support

Alongside your UCAS application, you may have to sit an entrance exam. These exams are challenging, but we'll support you throughout the process.

Explaining the collegiate system

When applying to Oxbridge, you not only apply to the university, but to a specific college. To help you make the right choice, we use a specialist software featuring college descriptions and subject application success rates.

*Our Oxbridge enrichment activities and timetable may vary by location

Bellerbys Foundation

Lancaster University Bellerbys College Foundation programme
is accredited by Lancaster University

The Bellerbys Foundation programme provides you with guaranteed conditional offers with a number of universities. Our eleven subject pathways are recognised by 100 UK universities, with 6,000 degrees – giving you the choice to make the right decision for you.

Designed for international students

Our Foundation is an intensive, three-term programme developed specifically for international students and accredited by the top-ranking Lancaster University. Its modular structure allows you to study multiple modules at once, with exams at the end of each. With its emphasis on developing strong academic and English language skills, our Foundation programme is a respectable alternative to A Levels and offers progression to 100 UK universities.

Guaranteed progression

You can benefit from conditional progression† to a range of top UK universities. Many of our university partners also offer Bellerbys Foundation students Guaranteed Conditional Offers upon application via UCAS.

Our Foundation programme university partners include:

Academic English Skills

Accepted by more than 40 universities, our Academic English Skills (AES) is built into your timetable from your first day of lessons, so you have more time to focus on developing your English language skills. And AES is accepted by more than 40 of our university partners in place of IELTS. By applying to these universities, you won't need to worry about taking an additional test to prove your English language level. Our AES programme helps you to:

- Read effectively and critically
- Listen to and make notes in lectures and presentations
- Deliver presentations and participate in academic seminars
- Research, plan and write academic essays
- Use language with clarity and confidence

You'll also be supported in developing the accuracy and range of written and spoken English you will need to express yourself effectively and with confidence.

If you wish to apply to universities that do not yet accept AES, we provide IELTS preparation and practice alongside AES.

Money back guarantee

We are confident that you will achieve your academic potential and get in to a top UK university. If you do not achieve this after completing your Foundation programme, we will refund your tuition fees. Terms and conditions apply – visit bellerbys.com for more information.

† Conditional progression is subject to submission of a correctly completed UCAS application, academic reference and personal statement meeting the required standard, as well as passing the Foundation programme with the required grades and English language level.

Bellerbys GCSE

GCSEs are renowned British qualifications studied by 14 to 16-year-olds, providing the first step towards A Level or Foundation study and later a place at a UK university.

GCSEs are a great stepping stone on your way to studying at a British university. Depending on your age and academic ability, we have a choice of programmes for you. Whichever programme you choose, you'll benefit from small classes taught by dedicated teachers experienced in teaching international students and our extensive enrichment programme.

English

All students are assessed on arrival in order to determine their level of English and need for additional English language support. Bellerbys offers an additional English language programme designed to raise a student's English language level in order to meet the IELTS required for the GCSE programme.

Developing your interests

As a GCSE student, you will benefit from our enrichment programme, which allows you to continue learning outside the classroom. You'll enjoy timetabled enrichment activities, extra-curricular sports or music each week.† From basketball to badminton to current affairs, debating club and Duke of Edinburgh's award, this all helps to build skills for your future studies.

Added support

It is a big, exciting step to study abroad, especially if you are a young teenager. That is why we keep classes small, typically with nine students. You'll have a personal tutor to ensure you develop academically and personally. On campus you'll feel safe and supported by your teachers and friends.

KEY FACTS	
3 AND 4 TERM GCSE	
AGE	15+ (students must complete the course before the age of 18)
COURSE LENGTH	Three or four terms (depending on location)
START DATES	September (Brighton and London), January (Brighton and Cambridge)
SUBJECTS	Study up to six subjects
CENTRE	Brighton, Cambridge, London - subjects dependent on location
AVERAGE CLASS SIZE	9 students
ENGLISH LANGUAGE ENTRY REQUIREMENTS	IELTS 5.0 or equivalent
ACADEMIC ENTRY REQUIREMENTS	Completion of a minimum of 9 years of school in your home country. Good grades and academic references

KEY FACTS	
2 YEAR GCSE PATHWAY (GCSE YEARS 1 AND 2)	
AGE	14-16*
COURSE LENGTH	Two years*
SUBJECTS	Study seven subjects
START DATES	Year 10 - September and January** Year 11 - September only*
CENTRE	Brighton
AVERAGE CLASS SIZE	6 students
ENGLISH LANGUAGE ENTRY REQUIREMENTS	IELTS 5.0 or equivalent (IELTS 5.5 or equivalent if starting in January)
ACADEMIC ENTRY REQUIREMENTS	Year 10 - Minimum of eight years of school in your own country. Good grades and excellent academic reference Year 11 - Entry only for students studying GCSE in a British school. Good grades and excellent academic reference

*Students studying the 2 year GCSE Pathway must complete the programme before the age of 17

**January start on a case by case basis

† Enrichment and extra-curricular activity varies by location

What can you study?

You'll benefit from small classes and our extensive enrichment activity, whichever programme you choose.

3-term GCSE Programme (Brighton, London)

This intensive programme helps you to complete the standard six-term programme in just three terms. It is ideally suited to students over the age of 15.5 who are dedicated to their studies and planning to study at a top UK university. Studying up to six subjects, including English and Mathematics, you'll have one set of final exams at the end of your programme during May or June, before progressing to our A Level or Foundation programme in September.

4-term GCSE Programme (Brighton)

Commencing in January, this programme is for students over the age of 15.5+ who won't finish studies in their home country until October/ November. Like the 3-term programme, you will study up to six subjects, including Mathematics and English, with one set of exams at the end of the programme (October and November). You can then progress to our A Level or Foundation programmes the following January.

4-term GCSE Programme (Cambridge)

Our intensive Cambridge pathway allows you to start your programme in September and progress to your chosen A Level or Foundation programme in the January of the next academic year. You'll study up to five subjects, including English and Mathematics. This additional term provides you with added support with science terminology. To study this programme, you'll be over the age of 15.5+.

2 Year GCSE Pathway Programme (Brighton)

The 2 Year Pathway Programme provides you with a thorough immersion to the UK education system.

This programme is ideal for students aged 14-16 who may be aiming to progress to our A Level programme in order to study medicine or progress to a top-ranked university. You'll study up to seven subjects, with exams at the end of your second year. To help you get the education and support you need, subjects are grouped into the following subject pathways for your convenience:

2 year GCSE Pathway subjects

BUSINESS AND ECONOMICS

English, Mathematics, Business, Chemistry, Economics, Information and Communication Technology, Physics

Relevant enrichment: Dragon's Den, Sustainable Business Club

CREATIVE ARTS

English, Mathematics, Art, Biology, Business, Chemistry, Information and Communication Technology

Relevant enrichment: Art and Design Club, Digital Drawing on an iPad

HUMANITIES

English, Mathematics, Chemistry, Economics, History, Modern Foreign Language, Physics

Relevant enrichment: Module UN

SCIENCE AND ENGINEERING

English, Mathematics, Biology, Business, Chemistry, Geography, Physics

Relevant enrichment: Young Scientist, Maths Problem Solving, Junior Medics

YOUNG OXBRIDGE

English, Mathematics, Biology, Chemistry, History, Physics, Modern Foreign Language or Geography

Relevant enrichment: Maths Problem Solving, Young Scientist

GCSEs at Bellerbys

The 3 and 4 term GCSE gives you the opportunity to study up to six subjects. Alongside English and Mathematics you'll study up to four other subjects of your choice depending on your preferred location (see table below).

Bellerbys Pre-Foundation

A pathway for international students looking to study our Foundation programme, but who do not yet meet the academic or English language requirements.

Our Pre-Foundation programme prepares you to successfully complete our Foundation and progress to a UK university. We'll help you to improve your English language and academic skills, as well as develop the organisational and presentation skills you'll need as a student in the UK.

The Bellerbys Pre-Foundation is offered at our Brighton and London campuses. Whichever campus you choose, you'll become familiarised with the British style of learning, benefit from small class sizes, improve your language skills and collaborate on group work to develop your communication and teamwork skills, as well as receiving support to improve your independent learning skills.

Pre-Foundation at Brighton

The 3-term Pre-Foundation at Bellerbys Brighton is for international students aged 15.5+ and looking to progress to a Foundation pathway in: **Art and Design; Business, Finance and Management; or Media.**

You'll study three GCSE subjects, with exams at the end of the programme in English Language, Mathematics and either Business, Art or Media. If you choose Art or Media, you'll also complete project work. You can also study for a GCSE exam in your native language – if it is available at your chosen location.

Pre-Foundation at London

Our London College offers a choice of Pre-Foundation programmes depending on your age. **Pre-Foundation** is a three-term programme, starting in September, for students over the age of 15.5+. **Pre-Foundation 18+** is a two-term programme starting in January and is for students over the age of 18.

On the three-term pathway, you will study:

- **Business BTEC (Business and Technology Council).** This course provides a more practical, real-world approach to learning. You'll study the world of business, giving you the opportunity to develop knowledge and technical skills in a practical learning environment.
- **Functional Skills in Mathematics.** Providing you with the essential knowledge, skills and understanding that will enable you to operate confidently, effectively and independently.
- **English.** IELTS and critical thinking skills development.

You'll also participate in our STRIVE programme, providing you with the academic skills that you may not have developed in your previous education.

The two-term pathway, starting in January, is an intensive course of study for students over the age of 18.

No matter the programme you choose, you can progress to the Business, Finance and Marketing or Marketing Foundation programmes at Bellerbys London.

FOUNDATION PROGRESSION OPTIONS	Brighton progression options: Art and Design; Business, Finance and Management; International Relations or Media	Business, Finance and Marketing
	London progression options: Business, Finance and Management; Marketing	

Bellerbys Undergraduate Year One

Equivalent to the first year of your undergraduate degree, we can help you to develop the skills necessary to meet the entry requirements for your preferred university.

If you would like to study an undergraduate degree at a UK university but don't quite meet the entry requirements for your chosen university, our Undergraduate Year One (UG1) in Business and Management is the programme for you. We'll help to develop your skills to reach the required level in time to join the second year of your degree[†]. We expertly combine your subject studies with your university preparation studies in a single study plan.

Our Undergraduate Year One programme will:

- ensure you develop the knowledge and skills for your chosen degree through the specialist Business and Management pathway.
- help you adapt to studying in the UK through modules designed to equip you with the skills you need for university.
- further develop your English language skills.

Our UG1 programme is equivalent to other International Year 1 programmes but with one major difference: you can choose to study at one of 27 UK universities, as well as making this important decision from within the UK. You'll have the opportunity to progress into the second year of universities ranked within the top 50*, including: University of Exeter, University of Leeds, University of East Anglia, University of Strathclyde, Cardiff University and Aston University[†].

Direct entry to your second year[†]

Developed in close partnership with Aston University, our UG1 programme provides you with the skills necessary to progress to your second year of university study. Developed for international students, we'll help you to adapt to the teaching and learning style used in UK universities through a mix of intensive lesson time and self-study. Our supportive staff make sure you develop your academic and English language skills, whilst our personal tutors guide you through the all-important UCAS application process.

Make your choice from the UK

We know that choosing your university is an important decision – as well as one that should be made when you are here in the UK, rather than before you arrive for your programme. Bellerbys offers you the opportunity to visit university campuses, attend guest lectures and visit our bi-annual university fair – all of which will help you to decide which university environment is best for you.

Wide choice of universities

The Bellerbys UG1 programme is accepted at 27 universities, including those in the prestigious Russell Group:

THE UNDERGRADUATE YEAR ONE IS ACCEPTED BY MORE THAN 20 UNIVERSITIES:	
University of Exeter (RG) (ranked 12)	University of Hull (ranked 77)
University of Leeds (RG) (ranked 13)	St Mary's University, Twickenham** (ranked 85)
University of East Anglia (ranked 23)	Solent University (ranked 89)

University of Chichester** (ranked 71)	

**These universities offer progression based upon our Academic English Studies (AES). Please note AES is not accepted by all UK universities. Students may still be required to take an IELTS test.

RG indicates Russell Group university

Academic English Skills

On the UG1 programme, we make your personal support our priority. Our dedicated staff are here to help you settle in to life in the UK and feel confident by the time you progress to university. You'll also benefit from our Academic English Skills (AES) programme, which we build into your timetable so you have more time to focus on your English language skills. A number of our university partners accept AES in place of IELTS, so as long as you apply to these universities, you won't be required to take an additional test to prove your English level.

We will also help you to develop your skills in:

- reading effectively and critically
- listen to and make notes in lectures and presentations
- delivering presentations and participating in academic seminars
- researching, planning and writing academic essays
- expressing yourself with clarity and confidence.

Guaranteed Conditional Offer from Aston University

Upon acceptance to the UG1 programme, you'll receive an offer of conditional progression from Aston University. Upon successful completion of the programme, and subject to achieving the required IELTS/AES level, you'll have the opportunity to progress to the second year of the following degrees at Aston University:

- BSc Business and Management (Hons) (with options in Economics, Accounting, Information Systems and Analytics)
- BSc Accounting and Finance (Hons)
- BSc Marketing (Hons)

Aston University is a top UK university, ranked 44 for Accounting and Finance and 35 for Business Studies. Aston Business School is a triple accredited school (AACBS, EQUIS, AMBA) – 1 of only 22 in the UK.*
The Times/The Sunday Times Good University Guide 2020

*Rankings according to *The Times and The Sunday Times Good University Guide 2020*

[†]Subject to achieving grades and IELTS/AES required by that university. Please note: university entrance requirements can change and successful completion of the programme is no guarantee of admission to that university.

Scholarships

Upon completion of the programme and progression to Aston University, two students on the UG1 programme have the opportunity to receive a scholarship of £1,500 from the University.

Bellerbys English Language Preparation (ELP)

If you're looking to study an academic programme at Bellerbys College, it is essential that you have the required level of English. Without this, you may find it difficult to get the grades needed to progress to your chosen university.

Our English Language Preparation programme is available for the amount of time you need it. You can choose from either one, two or three terms to improve your IELTS level and build your confidence to communicate in English. The length of time you should allow for your language development depends on your ability, motivation and learning capacity. As a guide, you should expect to improve two bands over three terms, but our academic team are able to give personal advice.

You'll be regularly tested so that we can keep advising you on your progress. As well as English language lessons, the ELP supports you in developing essential study and subject skills. While studying the ELP programme, you'll be able to participate in all of the College activities.

Short courses at Bellerbys

Bellerbys Summer

Immerse yourself in British culture with our summer programme, available at Bellerbys Brighton. This two or four week course is open to students aged 14-17. You can choose between our Academic or Creative pathways, depending on what interests you the most. Both pathways include English lessons to develop your vocabulary and essay-writing skills. You'll also take part in a variety of sports and social activities.

IELTS Express

An intensive, six-week English language programme taught by experts on the IELTS exam. This is the best opportunity for you to improve your IELTS score by up to one full point in just six weeks. Starting in July, you should complete this programme in the summer prior to a September start at either Bellerbys or the university of your choice.

Full details for Bellerbys Summer and IELTS Express, including dates and entry requirements, visit bellerbys.com/find-your-course.

KEY FACTS	
AGE	15+
COURSE LENGTH	1, 2 or 3 terms followed by your academic programme
CENTRES	Brighton, Cambridge, London
START DATES	January, April, June and September
HOURS PER WEEK	25 hours
STUDY PLAN	First you take the English Assessment Test. We will then advise you how long your English Language course needs to be before you start your academic course.
ACADEMIC PROGRAMME REQUIREMENTS	The course you are progressing to will determine your ELP requirements, our admissions team can advise you further. IELTS Entry levels: · 1 Year GCSE 5.0 · A Level 5.5 (3 Term 6.0) · Foundation 4.5 (January start 5.0) · (Extended 4.0) · Undergraduate Year 1 5.5 (5.0 in writing)
