# The AIS Boarding Experience

## A Warm Welcome from Australian International School's Head of Boarding

Stepping through the doors of AIS' boarding house is a warm and welcoming experience. Our state-of-the-art residential space was first opened in August 2020 to provide a safe, modern, and comfortable home for up to 50 students aged between 11 to 18 years.

Our boarding community quickly become friends, and then like family, as we live harmoniously in an environment where academic diligence is promoted, diversity is celebrated, and our young people are supported in becoming responsible and respectful adults.

With our care and support, students learn life skills such as independence and resourcefulness, so they can confidently take their place in the world. It is an excellent preparatory step for university life and beyond.

We look forward to welcoming you and your child into the AIS family.

*Elisa Carroll*  
Head of Boarding

# A world-class education from an international school

AIS is a co-educational school that offers a universally recognised educational experience. Both the International Baccalaureate (IB), and International General Certificate of Secondary Education (IGCSE) programmes are delivered by a mixed-specialist staff of largely expatriate teachers. As an English-speaking school, they assist students in achieving worldwide academic excellence. With an internationally recognised education, students are granted access to global opportunities to study or work abroad.

International Education**

## An **inspired** school

AIS is part of the Inspired Group, the world's leading group of premium schools, across 6 continents. With global connections and an international mindset, children learn about other cultures and perspectives, develop a global network of lifelong friends and connections, appeal academically to international universities and future employers, and participate in a diverse and enriching community. Students are invited to participate in Inspired's Global Exchange Programme and Camps, and experience student life in one of Inspired's other premium schools.

# Premium, modern facilities

AIS includes three campuses, **Thu Thiem** for kindergarten to year 13, **Thao Dien** for kindergarten to year 6 and **Xi**, which is our kindergarten only campus.

Our Thu Thiem campus features fully resourced classrooms, a recently renovated library, a specialised IB Centre, an air-conditioned double gymnasium, and a swimming pool with football fields as well as dedicated spaces and rooms for our boarding students.

Thu Thiem's campus amenities truly reflect the world-class stature of the school and offer a home away from home for our residents.

# An enriching and life-changing experience

## Independence

A strong work ethic, time management and keeping a schedule are some of the important life skills that boarding students develop, in an accelerated manner. Students take responsibility for their learning and education, ensuring they are balancing their extracurricular activities with academic requirements, helping them to prepare for an academic and work life beyond school. Social maturity and teamwork are also developed, as students learn and live alongside others.

A well-maintained kitchen and communal area are available for students to use. A full list of our boarding amenities and services is available in the AIS Boarding Handbook.

## Social and academic opportunities

The AIS campus is within easy reach of the boarding site. Students can easily access the school's sports facilities and extracurricular activities. Boarders have supervised excursions outside of the boarding vicinity on weekends, plus access to tutors when required. Importantly, the school has a vibrant community where children forge strong friendships and enjoy their free time with friends.

All AIS students are offered the same extensive extracurricular and after-school activities. AIS is committed to providing multiple opportunities for students to develop their passions and explore new skills as part of their learning experience.

Students are invited to join clubs, be part of leadership groups, compete in interschool competitions, enjoy camps, and field trips, and be involved in fundraising for the community programmes.

## Safe and nurturing environment

Boarding students at AIS have access to House Parents and Counsellors, who provide a safe and caring environment. Our staff are present to guide and mentor students through any challenges and to provide academic support.

AIS's campuses, and especially our boarding house, are safe and secure facilities with a professional team on site 24/7 to always ensure the safety and wellbeing of children.

## Unlock the next step of your child's education journey

All AIS Boarding House students have access to the school's qualified University and Careers Counsellor. The Counsellor gets to know each resident and support learners with key information and advice on academic options. As a premium international school, our Counsellors are committed to aiding students to explore career ideas as they make key decisions about their future studies. Additionally, they keep students and parents up-to-date with university events and career information sessions. During the application process, Counsellors provide advice on how to effectively apply for universities.

# Boarding options

Bespoke boarding arrangements can be made upon enrolment.

AIS offers both weekly and full term-time boarding options.

## Weekly boarding

Weekly boarding is suitable for students who wish to spend weekends at home and is perfect for those who would otherwise have a long commute to school. During the week, they have more time for study, can participate in extracurricular school activities and build friendships.

## Full term-time boarding

A full term-time boarding choice is the perfect solution for students who do not have accommodation in HCMC or who live outside of Vietnam. Fulltime boarders remain at the boarding school during weekends but return home for the school holidays.

There are plenty of opportunities to become independent as a fulltime boarder, easing the transition to university.

# Experience our premium boarding school for a week

The transition to a new boarding school is an exciting journey. At AIS, students can experience what it is like to be a boarding student for a week.

Discover first-hand the AIS curriculum and classroom experience, as well as the daily life of a boarder.

To register your interest, or for further information about our premium boarding facilities in Ho Chi Minh, please contact our Enrolment team at [info@aisvietnam.com](mailto:info@aisvietnam.com).
